Sunday, September 11, 2002

Last Sunday was the 21st anniversary of the 9/11 attacks, a solemn day for each of us as individuals and as a nation. On the morning of September 11, 2001, extremists hijacked four airplanes from east coast airports, including our own Logan International Airport. Two of those planes were flown into the twin towers of the World Trade Center, a third hit the Pentagon, and a fourth crashed in Shanksville, Pennsylvania. Nearly 3,000 people were killed during these attacks. Tomorrow we will commemorate this solemn anniversary. For more information on the September 11, 2001 attacks please navigate to [The 911 Museum and Memorial](#) or [The History Channel 9/11 page](#)

DPW Road Work Update

METCO Students Lead Tours of Nubian Square

Please join Bedford METCO students and others to discover the historic treasures of Nubian Square in Boston. The tours feature information gathered by our young METCO scholars. Join students from METCO's suburban high schools on a walking tour highlighting stories of Black artistry, activism, and achievement you might not have learned before. The FREE tour culminates at METCO's brand new headquarters with an in-depth exhibit on the history of educational activism in Boston. The tours are being extended into September. To sign up click on the date and time. For [9/24/22 @10AM](#) or [9/24/22 @1PM](#).

Free Lunch for All

The Commonwealth of Massachusetts has decided to support another year of free lunch for all students! The state legislature recently approved funding for school districts to continue offering lunch to all students without charge. Districts will be reimbursed for all lunches served by the federal USDA program as well as by the state to reach the free lunch rate. Districts are required to use point-of-sale cashier systems to document lunches served. Additional a la carte items will be available at a cost. Free and Reduced applications will continue to be collected. For more information go to <https://www.bedfordps.org/district/food-services-department>

COVID-19

The school nurses are in the process of being certified to provide symptomatic antigen testing at school. Unfortunately, there is a delay from the state in the application process. The plan is to have symptomatic testing up and running in the schools as soon as possible. Testing, when available, will be available to all symptomatic students who have a consent form on file.

If your child has mild symptoms of illness, please test them at home with a rapid home antigen test before sending them to school. Please refer to the COVID-19 symptom checklist on the [BPS website](#) and for more detailed information on COVID-19 protocols for school.

We encourage all families to keep a supply of COVID-19 home rapid antigen tests on hand. Home test kits are available from the following town offices during normal business hours: Health Department, Council on Aging, Town Manager's Office or the Bedford Free Public Library. Students may attend school with mild symptoms as long as they are testing negative on an antigen test before coming to school.

We encourage everyone who is eligible to consider getting vaccinated with the most recent booster. Free vaccinations are available from the Bedford Department of Health and Human Services tomorrow Saturday 9/17/22 at Bedford Day. For more information about these clinics please navigate to [Bedford Health Free Shots](#).

For the latest information on COVID-19 cases within the school district please navigate to the [Bedford COVID-19 Dashboard](#)

As always, thank you for your patience, your participation, and your continued commitment to our schools.

Sincerely,

Philip Conrad
Superintendent
