Partnering

This year, as we looked to celebrate the 50th anniversary of the METCO Program here in Bedford, we were able to partner with so many of the community members to work on bridging the gap of students feeling connected here while at school and even out side.

Recognition to: Peer Leaders, Parent Diversity Council (PDC), Bedford Embraces Diversity (BED) and the Bedford Citizen. These partnerships were crucial and vital to the success of not only the program but also the students and families who consider Bedford a part of their community

Future Plans

We are looking looking to increase the program back to the 100 scholars by working on placing 25 new families to the Bedford Family! This will be an addition of families throughout all 4 buildings. All district leaders have been instrumental in inviting families and offering their time to answer all questions.

We are working with Central Office and the Leadership team to create a METCO Coordinator position to help support the increase of students at the Davis School.
