SUBJECT: Student Activity Account Maximum Balances

---

Each of the district's schools has established Student Activity Funds to support access to extra-curricular or co-curricular activities of students in accordance with M.G.L Chapter 71, Section 47. The established procedures for such accounts include an annual vote by the School Committee to set school checking account maximums for the balance that shall be available for the student activity accounts.

A vote of approval of the maximum balances is requested. There is no change in the account maximums from the prior year.

***Motion: That the School Committee establish the following maximum balances for student activity accounts for fiscal year 2022 as follows:***

**Bedford High School        \$50,000**

**John Glenn Middle School \$15,000**

**Lane Elementary School    \$7,500**

**Davis Elementary School    \$7,500**

I am happy to answer any questions regarding this matter.
