

Bucs Robotics

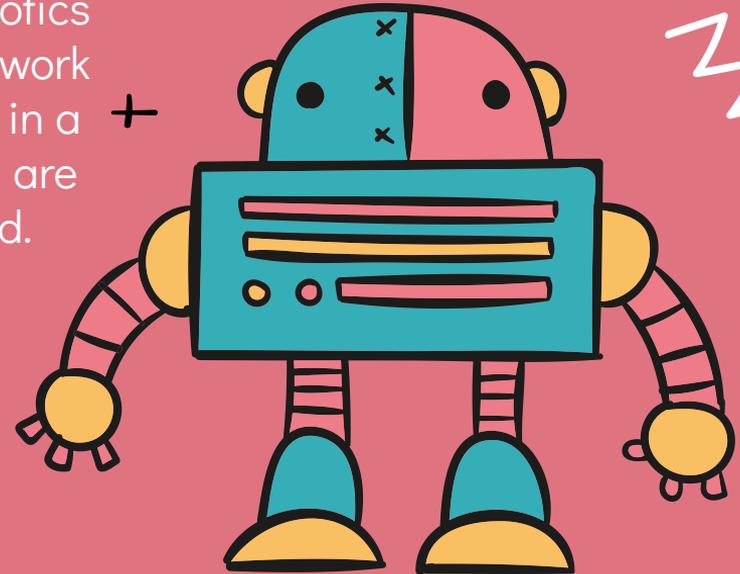

Vex Robotics Team #2621

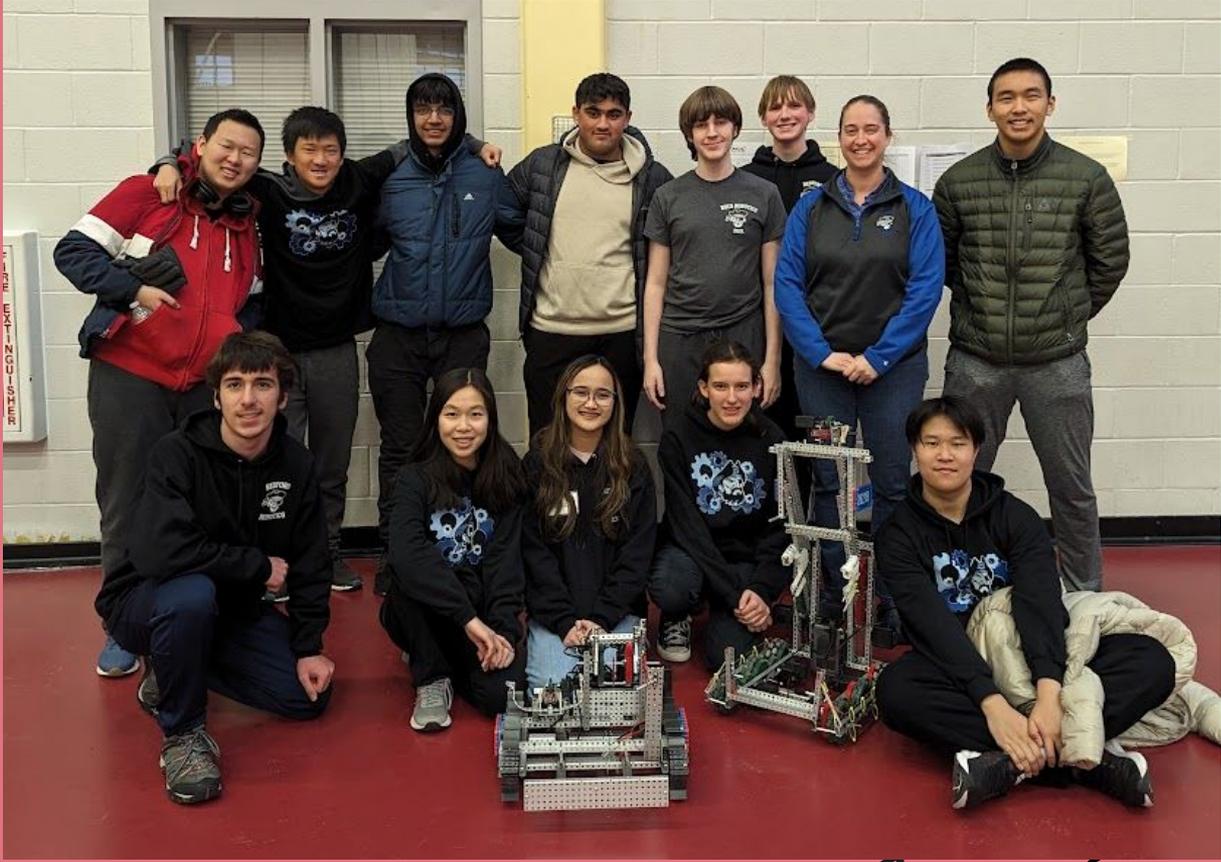

Who We Are

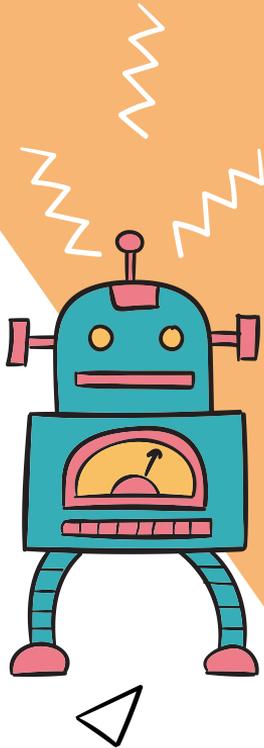

Bucs Robotics is the Bedford High School after-school robotics team. The team is open to any BHS student who is interested in joining.

Our team participates in the VEX Robotics Competition - small teams of BHS students work together to design and build robots to compete in a different game each year. Our teams are student-led and student-driven - and self-funded.

What We Gain

01 STEM Skills Development

Design, build, program and troubleshoot.

03 Teamwork & Collaboration

Communication, cooperation, leadership

02 Problem Solving Skills

Analyze challenges, devise solution, iterate designs

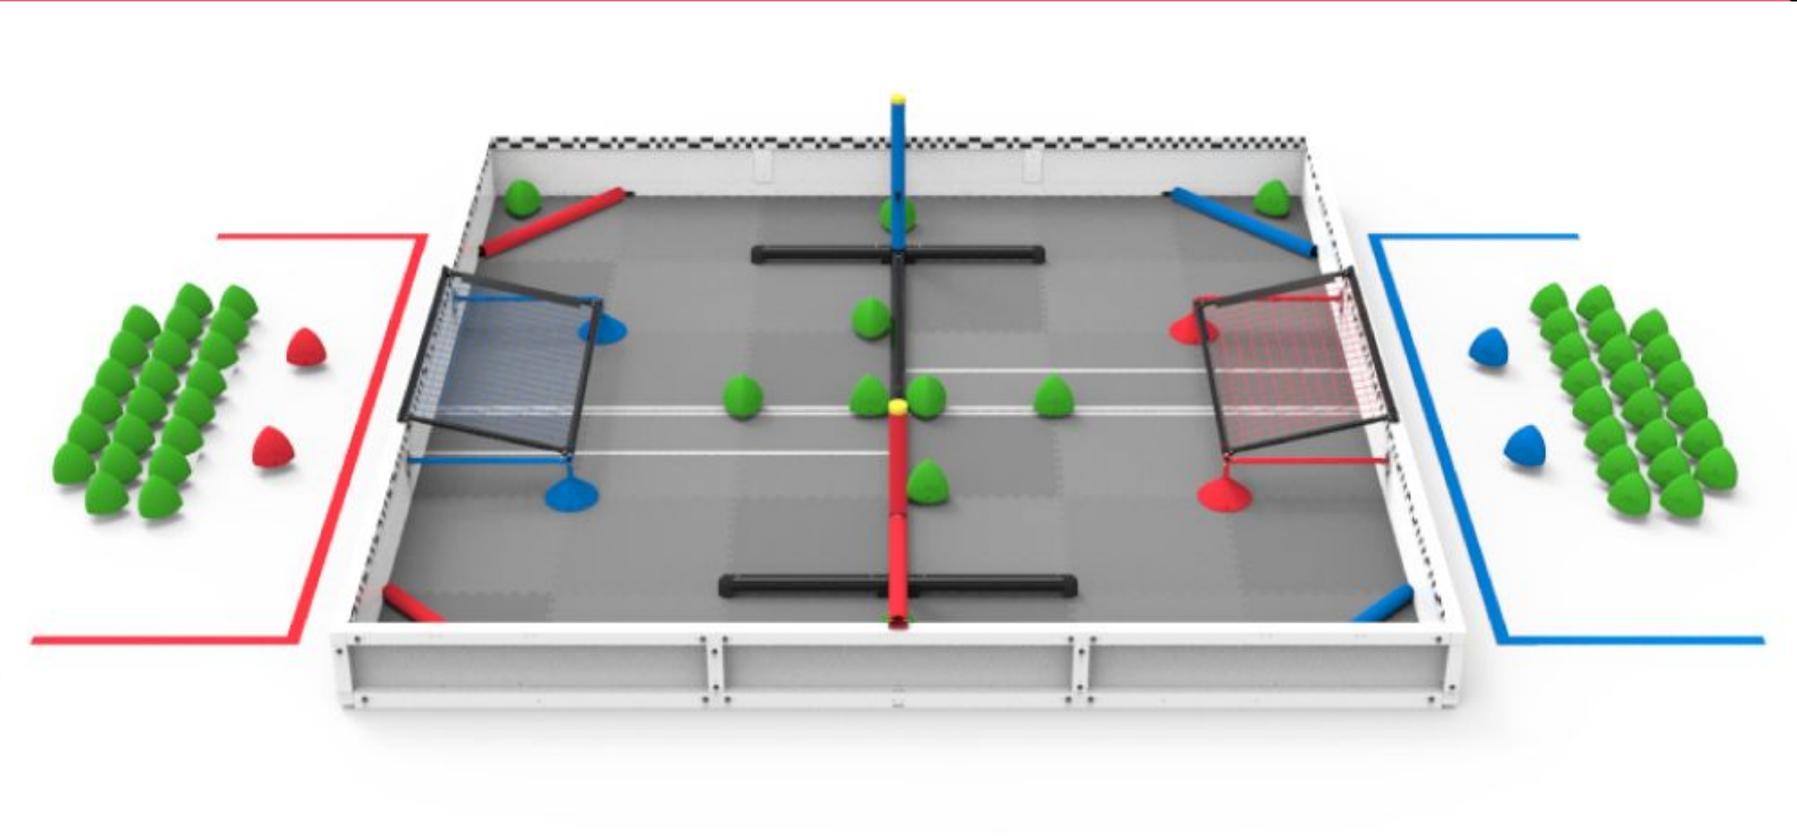

04 Personal Growth

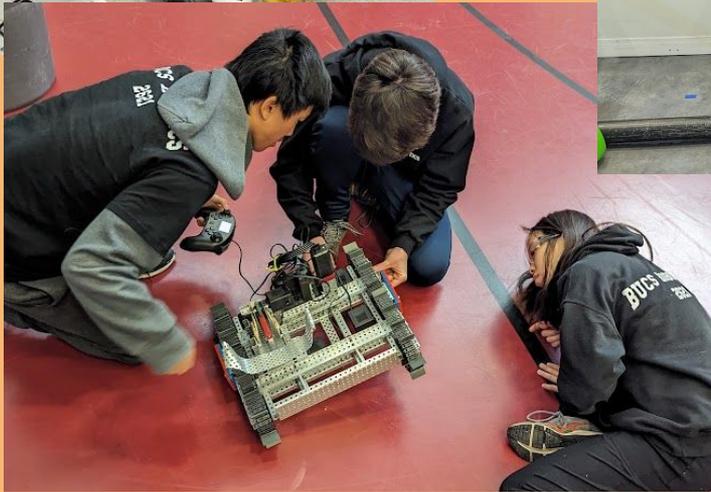

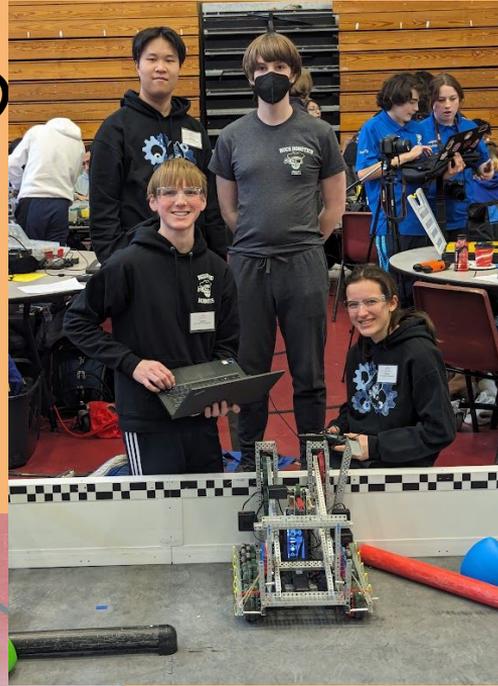

Gain new skills, practice resiliency, practice teamwork

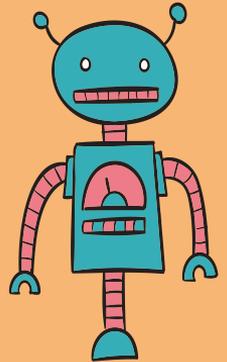

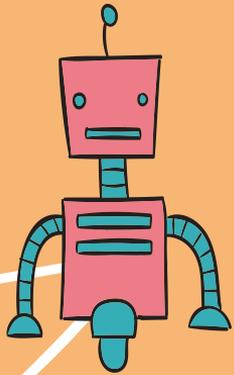

This Year's Game: Over Under
