The Bedford COVID-19 Task Force met Monday, March 30, 2020 to review the latest guidance from the Department of Public Health (DPH), the office of Governor Charlie Baker, and Town Legal Counsel.

The COVID-19 Task Force is comprised of the following Town officials:

*Sarah Stanton, Town Manager*

*Jon Sills, Superintendent of Schools*

*Heidi Porter, Director of Health and Human Services*

*Robert Bongiorno, Police Chief*

*David Grunes, Fire Chief Taissir Alani, Facilities Director*

### Active Cases

As of today, March 30, 2020, there have been a total of eleven (11) positive cases of COVID-19 reported to the Town of Bedford Board of Health by the Massachusetts Department of Public Health (MA DPH). Three (3) of these cases have already recovered and have come off of isolation and quarantine, and there is one (1) Person Under Investigation. It is likely that there are individuals impacted by COVID-19 in the community that have not sought medical attention, and/or have not been tested and are isolating at home regardless. Those individuals do not appear on the surveillance reports the Town receives from the MA DPH.

The Board of Health continues to do the appropriate follow-up and outreach to those residents and close contacts known to us. Many of the identified close contacts of the initial cases never exhibited symptoms, have completed their required quarantine period and have been released from quarantine by the Board of Health. The Town has also been informed of one (1) presumptive positive case at Hanscom Air Force Base. This individual has been released from isolation, and has no close contacts that the Town of Bedford is required to follow up on.

Anyone exhibiting flu-like symptoms should immediately self-quarantine, isolate from household members and contact their healthcare provider for further guidance on whether testing is warranted.

## Town Update

The CARES Act, passed last Friday, March 27, 2020 earmarks \$350 billion dollars for small businesses, all of which are struggling with immediate decisions about how to make rent, what to do about their employees, and which bills to pay. Tomorrow, Tuesday, March 31st at 5 PM, Congressman Seth Moulton and Massachusetts SBA Director Bob Nelson will host a Small Business Forum on Facebook. This forum will detail the programs that were created to help small businesses and instruct them on how they can apply for assistance.

Please share this important information widely.

RSVP for Tuesday's Small Business Facebook Live event here:

## School Update

As I hear accounts of our educators' efforts to enable learning that is engaging, equitable and stress-reducing as we move forward this week, I am heartened but hardly surprised by the commitment, creativity and caring that guides this work. Simply put, we have an exceptional faculty and staff that are ready to partner with students and families in the coming weeks.

Thanks to a great team effort that included 26 school personnel, school committee members, and community supporters, we were able to get Chromebooks today to families who requested them.

## General Guidance

Town officials continue to urge residents to deploy social distancing, and limit social gathering. Go for a socially distanced walk, order take-out, get your coffee to-go, pick up a gift certificate, and support the local business communities from a distance.

Public health officials strongly discourage activities that promote gathering of people, including play dates, sleepovers, parties, social visits, and other activities where closer contact is the norm.

The Town has stated and continues to advise that those — including municipal employees, residents, or students — who are feeling sick with fever or flu symptoms should stay home, self-quarantine, not report to work or school, and contact their medical provider to determine if they should be tested for COVID-19.

For previous updates on COVID-19, please review the COVID-19 News and Announcements Page at on the Town website ([www.bedfordma.gov](http://www.bedfordma.gov)).

It is important to remember that while the COVID-19 outbreak is evolving quickly, influenza is currently circulating in the area. Many of the things you do to help prevent colds and the flu can help protect you against other respiratory viruses:

- Wash your hands often with soap and warm water for at least 20 seconds.
- Avoid touching your eyes, nose and mouth.
- Clean things that are frequently touched (like doorknobs and countertops) with household cleaning spray or wipes.
- Cover your mouth when you cough or sneeze. Use a tissue or your inner elbow, not your hands.
- Stay home if you are sick and avoid close contact with others.
- Employ social distancing if you are not otherwise required to be in quarantine and must go out.
- For those at home, a little moderate exercise or meditation goes a long way. Get up, stretch, and maybe have a short walk.

The best source of guidance and recommendations is the DPH website: [www.mass.gov/covid19](http://www.mass.gov/covid19)

Alternatively, if you are without internet capabilities, please call the State hotline: 2-1-1,

You can also the Town of Bedford website for local updates and actions: [www.bedfordma.gov](http://www.bedfordma.gov)

Town and School officials, and the Bedford Health Department, remain in continuous communication about this issue, and further updates will be provided to the community as we receive them.
