

Gender Studies
Level 5 Summer Assignment

Directions: For your summer assignment, you are expected to read **either** The Male Brain **or** The Female Brain by Louann Brizendine, M.D. This is due on the first day of school, September 6, 2016. Late credit will not be given.

After completing your book, you will take a test in-class that will be comprised of multiple-choice and short answer questions on your particular book. If you transfer from Honors (Level 4) to High Honors (Level 5) after the test is given, you will write a paper, which will be due two weeks after the switch is made.
